17. ABSTRACT (MAX. 250 WORDS)

The second edition of a recently instituted fact book series designed to report the findings of numerous studies concerning Florida State University. The publication is largely statistical in content. Main topics covered include history and government of the institution; organization and administration; enrollment data; student abilities, grades, fellowships, and degrees conferred; faculty and faculty load; financial data; physical facilities; and research.

INSTITUTIONAL RESEARCH AND SERVICE
Florida State University
June, 1961

FOREWORD

During recent years many studies have been made concerning the Florida State University. These studies have resulted in routine reports which have been issued periodically by various University offices and special reports prepared by individuals and University agencies. Many of these studies have been made in response to requests: by University officers and agencies, by the Florida State Board of Control, by officers of the state government of Florida, by agencies of the federal government, by organizations such as the American Council on Education and the Research Division of the National Education Association, and by other individuals and agencies. The studies have examined a wide variety of aspects of the Florida State University.

In view of the large number of studies completed and in response to a feeling of need that the essential findings of many of these studies be compiled into a single volume, the Office of Institutional Research and Service has prepared the text for this Fact Book.

Inasmuch as this is a first effort at a publication of this kind, there may be errors and omission of items which should have been included. Comments and suggestions are invited to the end that subsequent editions of the Fact Book may meet more adequately the needs of those who constitute the professional staff of the Florida State University.

PART I

HISTORY AND GOVERNMENT

HISTORY AND GOVERNMENT

HISTORY OF FLORIDA STATE UNIVERSITY

In 1851 the Legislature of the State of Florida provided for the establishment of two state colleges, one to be located east of the Suwannee River and one west.

As an inducement to place one of these institutions at Tallahassee, the Board of Trustees of the Florida Institute offered the legislature a new building and property for the school, appraised at ten thousand dollars. The legislature accepted this offer in January, 1857. In February of that year the Seminary west of the Suwannee River was opened at Tallahassee. The institution later became the Florida State College and continued in operation until 1905.

In 1905 six state institutions of higher learning, including the Florida State College, were discontinued. In their place, two new institutions were established--a university for men and a college for women. The management of these institutions was vested in a Board of Control. The Board of Control and the State Board of Education met in joint session and decided to locate the college for women in Tallahassee. Florida State College for Women opened in the fall of 1905.

On May 15, 1947, the Governor signed a bill passed by the legislature making Florida State College for Women coeducational and changing its name to The Florida State University.

FSU today has an enrollment of more than 9,000 resident students and includes the following divisions: College of Arts and Sciences, School of Education, School of Home Economics, the Library School, School of Nursing, School of Music, School of Business, School of Social Welfare, and the Graduate School.

The Graduate School offers work toward masters' and doctors' degrees.

STATE BOARD OF EDUCATION

The State Board of Education consists of the Governor, the Secretary of State, the Attorney General, the State Treasurer, and the State Superintendent of Public Instruction. The Governor is the Chairman of the State Board of Education and the State Superintendent of Public Instruction serves as secretary and executive officer.

HISTORY AND GOVERNMENT (CONTINUED)

The State Board of Education determines policies, adopts rules and regulations, prescribes minimum standards, performs duties and exercises responsibilities assigned to it by law or "as it may find necessary for the improvement of the state system of public education in carrying out the purposes and objectives of the school code." The State Board of Education exercises "such control and supervision over the institutions under the management and control of the State Board of Education as may be deemed proper by said State Board of Education with due regard to the highest interest of education." The State Board of Education supervises the work of the Board of Control as prescribed by law.

BOARD OF CONTROL

The Board of Control consists of seven citizens of the State of Florida, one from each of the six congressional districts and one from the state at large. They are appointed by the Governor. Their terms of office are four years each and until their successors are appointed and qualified, except in case of the appointment to fill a vacancy, in which case the vacancy is for the unexpired term. The Governor may remove any members of such Board for cause and shall fill all vacancies that may at any time occur therein. The Board of Control is paid only for actual expenses incurred while in the performance of their duties and in traveling to and from meetings. The Board of Control is at all times under and subject to the control and supervision of the State Board of Education.

The Board of Control has jurisdiction over and complete management and control over the following institutions: the University of Florida, The Florida State University, the University of South Florida, the Florida Agricultural and Mechanical University, the Florida School for the Deaf and Blind, and the John and Mable Ringling Museum of Art.

The Board of Control is invested with full power and authority to make all rules and regulations necessary for the governing of the above mentioned institutions when these rules and regulations are not inconsistent with rules and regulations of the State Board of Education.

The Board of Control appoints all officers, managers, faculty, teachers, servants, and employees and has authority to remove the same as in its judgment and discretion may be best. It sets compensation and provides for payment. It controls the lands, buildings, structures, and property belonging to the institutions over which it has jurisdiction. It supervises all budgets, finances, and expenditures. It has control of all buildings and properties and may purchase and acquire land and property necessary for the operation of the institutions which it controls.

4.	Edward Conradi	1909-1941
5.	Doak S. Campbell	1941-1957
6.	Albert B. Martin (Acting President)	1957
7.	Robert M. Strozier	1957-1960
8.	Milton W. Carothers (Acting President)	1960
9.	Gordon W. Blackwell	1960-

---

*The Male and Female Departments of the West Florida Seminary each had its own officers and its own faculty until the fall of 1877, when the principalship of the Female Department was discontinued. In 1882 the two departments were united in a system of coeducation with one executive and one faculty. Until 1887 the executive officer was called "The Principal"; since 1887 the title has been "The President."

**This quotation and most of the above data are from the volume entitled History of West Florida Seminary by William G. Dodd.

NOTES:

1. The school year includes the summer, fall, and spring terms.
2. Figures have been rounded where necessary.
3. The number of F.T.E. students has been determined by dividing semester hours produced in undergraduate work by 30 and by dividing the semester hours produced in graduate work by 24.
4. The Audio-Visual program was moved from the Library School to the School of Education in 1959-1960.
5. Certain courses in Social Welfare were moved to Arts and Sciences in 1960-1961.
6. Human Development is budgeted in Research but does engage in some teaching. The students served by this unit were reported in the School of Education prior to 1959-1960.

TOTAL ALL SCHOOLS	8162.00	8412.20	8559.43	9240.21	

NOTE: To determine the number of FTE students:

a. divide semester hours produced in undergraduate levels by 30.

b. divide semester hours produced in graduate level by 24.

NOTE: Figures have been rounded where necessary.

---

*In the fall of 1959 the Department of Audio-Visual Education was transferred from the Library School to the School of Education. This shift explains in part the considerable increase of FTE students in the School of Education and the considerable decrease of FTE students in the Library School.

*In the fall of 1960 Marriage and Family Living courses were moved to the Department of Sociology in Arts and Sciences. This is the reason for the decline in enrollment in Social Welfare.

**Human Development is a research unit which also teaches several classes serving a number of separate schools.

***School of Journalism and School of Public Administration.

NOTE: The reports here are in terms of the number of F.T.E. students served.

To determine the number of F.T.E. students:

a. divide undergraduate semester hours by 30.

b. divide graduate semester hours by 24.

TABLE 16

NUMBER OF F.T.E. STUDENTS ENROLLED: IN EXTENSION CLASSES, ENTIRE YEAR, BY COLLEGE OR SCHOOL

COLLEGE OR SCHOOL	Year 1956-1957	Year 1957-1958	Year 1958-1959	Year 1959-1960
Arts and Sciences	519	569	553	597
Business	43	53	39	66
Education	218	205	127	209
Home Economics	12	15	19	12
Journalism	4	3	3	----
Library School	43	52	28	7
Music	9	47	23	13
Nursing	8	3	8	----
Public Administration	----	----	----	----
Social Welfare	24	19	17	21
Human Development	----	----	----	4
TOTALS	880	966	817	929

NOTE: The above includes extension classes, correspondence work, and "Bootstrap" classes.

NOTE: F.T.E. students are calculated by dividing semester hours produced in undergraduate work by 30 and semester hours produced in the graduate level divided by 24.
